Shakeup Includes Klatzco.

As now projected the shakeup includes the removal of Harry Klatzco. general superintendent; Maj. Carlos Ames, secretary, and Charles Peace. special attorney.

According to information that percolated through Republican circles yesterday, Klatzco is to be replaced by William H. Wesbey, who was deposed some months ago by Thompson's or-der; Ames is to be succeeded by W. B. Wetterstrom, a Lundin protégé in the Forty-ninth ward, and Peace is to be ousted in favor of Robert H. Far-rell, former assistant city attorney un-

der Thompson.

These changes are made possible by the recent ouster of two of Thompson's friends on the board, Samuel Gessler and Harold N. Scott. They were re-placed by David H. no value. Life in a capital is a strain on some eak elements in human nature and it is natural that there should be an effect on judgment. There are men who keep a level head in spite of all this, but there are a great many more who do pot. Bureaucracy is devoted to the god of things as they are. Its habit is to get thick in the neck and fat in the head.

It travels in a small circle and does its thinking with its perceptions restricted to a room, not seeing much beyond the top of the desk. Mambers of congress who go to Washington from all parts een out from under the dome.

THE PANAMA CANAL COMES HIGH.

H. E. Byram, former president and now ceiver for the St. Paul railroad, says the Panams canal is one of the principal reasons for his road's tallure. Mr. Byram said the annual loss in revenue his company alone as the consequence of canal npetition was \$15,000,000.

OUR WICKED COUNTRY.

John Grier Hibben, Woodrow Wilson's successors president of Princeton university, has replied to nator Borah's letter. The senator had explained in detail his opposition to our joining the league of nations' court. Dr. Hibben's reply was brief. He did not care to go into the senator's argument. He wanted chiefly to say that in his opinion "the participation in the present world court on the part of the United States is the irreducible minimum o our international obligations."

Dr. Hibben says the irreducible minimum, but he means the first step. Then followed the suggestion of the firemen's memorial on the top level of South Water street. This upper deck at State street has a roadway of 72 feet. Then it broadens out as the drive stretches toward Michigan avenue. In this area there has been placed, on the plans, a large oval. On the drawings it scales about 190 feet for its greatest length and about 80 feet for its extreme width. This includes the side walk which circles the oval. On either side of the oval is a roadway 43 feet wide.

More of it is being spent for a Father Marquette memorial and still more is to be used in decorating the bridge house of the Michigan avenue span, which will overlook firemen's memorial house in some other place. They have suggested that if the present plan is abandoned they will appeal to the trustees of the B. F. Ferguson art fund for a work of art to be located in the oval. The art commission believes it can carry through the control of South Water street?"

CHAOS IN CHINA DIMS OUTLOOK FOR AUTONOMY

Anti-Foreign Peril Looms as Powers' Quiz Nears.

T RODERICK MATHESON.

TOKIO, Dec. 6.-Foreign observers n Japan and China are grimly sarstie over the approach of Dec. 18. representatives of the powers into conditions in China. The investigation is to be made in response to China's request that the powers surrender their quest that the powers surrender their extraterritorial rights. Foreign authorities believe that China itself is supplying the answer to those sentimentalists in America and England who have been adopting resolutions of sympathy with the Chinese students in their clamor for "freedom" and "autonomy," and who have been waxing indignant over "the shooting of unarmed students" by British police in Shanghal.

Seize Men for Armies.

Today China is filled with another ort of clamor—the lamentations of undreds of thousands of young men dragged away by press gangs and kicked into uniforms to fight in a quarrel they know nothing and care nothing about; the shricks of their mothers and wives; the wallings of old men and women at the confiscations by militarists of their few horses and keys and their farm carts, commandeered for military use; the curses of merchants, ordered to hand over great sums of money, without secur-ity and with almost certain guarantee hat the coin will never be returned

Stockings are a symbol of Christmas

.... And Peck & Peck, for more than a half-century, has been the symbol of fine Christmas stockings.

They are like no other stockings in all the world—in texture, in color, in loyal service.

And that's why stockings from Peck & Peck's are a charming gift yet practical.

For women, they may be had in sheerest silk for street and formal wear, and in lustrous lisle and rugged wool for winter sports—at prices ranging from \$2 to \$9.50 the pair.

And for men, there are smartly colorful socks of silk, French lisle and Scotch wool, and sport hose of exclusive patterns and vibrant shades. Priced from \$2 to \$15 the pair.

Stockings and socks, indeed, that no jokesmith, however clever, could make a Christmas joke of-gifts that will be appreciated each and every day they are pridefully worn.

RUBBER-An International Hold-up

By WILLIAM S. FORMAN

THE inside story of the alarming increases in the price of crude rubber which have been forced upon the American public by the British rubber trust—a monopoly which for perfection of organization and the frank ruthlessness with which it dictates prices, occupies a unique place in the history of combinations in restraint of trade. If you wan a motor car or wear galoshes when it snows, you'll be interested in reading about the "agreement" between the British rubber growers which reaches its long arm across the seas to pick the well-known American pocketbook.—See Page 29.

EVERYWHERE the youthful flaunting of conventions is the topic of discussion. Young people refuse to abide by the old standards of conduct. Petting parties are in vogue. Clandestine motor rides are indulged in. In restaurants, cabarets and in roadhouses that surround the larger cities bizarre scenes are to be witnessed.

Liberty has written to correspondents

in 140 towns in the United States and Canada asking them: "What of the young generation in your city or town—the flappers and lizards, the sheiks and shebas that we hear so much about? Are many of them really bad? Or is it just the appearance of evil which they give?"

Liberty's articles will present the facts as experienced newspaper men in all parts of the country know them. These are articles which everyone should read.

You should live 18 years longer than your grandfather

By LOUIS I. DUBLIN

Chief Statistician, Metropolitan Life Insurance Company

HOW Science is lengthening the life span of the average man and woman with each generation. The popular notion is that the length of life is decreasing. Dr. Dublin denies this. You may expect to live 18 years longer than your grandfather, seven years longer than your father, and your child will probably live four or five years longer than you do. A fascinating and informative article.—See Page 13.

EPRESENTED in practically every important industry, and the leader in many lines, St. Louis ranks as one of the greatest and most versatile manufacturing cities in the world.

Journey to remote corners of the globe, and you'll find the name of St. Louis stamped on many of the things you see and the things you use.

You'll find St. Louis-made street cars plying the streets of distant cities Automobiles from St. Louis will greet you in foreign lands.

In far-off Africa you'll find barber chairs which hailed originally from St. Louis. In South America you'll find St Louis-made tools.

Wherever you go you'll see folks who are wearing St. Louis shoes; you'll eat food cooked on St. Louis-made stoves; you'll buy many pharmaceutical items prepared right here in the Capital of The 49th State.

Coffee, bricks, hats, clothing, engines, bags, food—the necessities and the luxuries of millions trace their origin to the industries of St. Louis.

The value of St. Louis products was \$914,276,503, in 1923, the latest year covered in Department of Commerce statistics. The growth of St. Louis industry is reflected in a 37% increase in this value over the output of 1921.

The average payroll in St. Louis indus-

tries numbered 113,253 in 1923, and wages totaled \$135,468,356.

. . . . And new factories are being built -new businesses are being established here all the time. New sources of raw materials are being developed in the vicinity of St. Louis. Population is steadily increasing as executives and artisans move to St. Louis to take advantage of the expanding opportunities.

Here is the ideal community—St. Louis at the center of the nation, endowed by nature with many raw materials. It is served by unequalled transportation facilities by rail and water for the distribution and sale of the things she fabricates from those materials.

The Globe-Democrat, St. Louis' largest daily, is proud of the part it has played in the development of the great St. Louis market. It maintains a Service and Promotion Department, and a Research Division for the purpose of assisting manufacturers and merchants in establishing a profitable outlet for their products. N. Y. TO PUSH MILK FIGHT

Defies Intimidation of Dairymen.

Support of the American Public Health association in Chicago's fight for pure milk is to be sought at a meeting of the association's executive committee in New York today by Dr. Herman N. Bundesen, health commissiones, he declared before leaving for the cent yesterday.

The association, of which Dr. Bundeew is a member, is composed of health officers all over the country. The commissioner believes their influence will all greatly the pure milk campaign.

Outsiders Offer Milk.

Dr. Bundesen said he also planned to investigate offers to have outside producers furnish the city milk from tested, healthy cows.

He avoided mention of requiring that

He avoided mention of requiring that the cows must be tuberculin tested, probably because of the injunction obtained by milk producers from a downstate judge, William J. Fulton, which retrains the commissioner from demanding the test.

Tou may say, however, that I intend to see that Chicago's milk comes from healthy cows, and is safe and clean," Dr. Bundesen added. "Intimidations and warnings of jail will not stop my performing my duty to Chicago."

The full support of three counties

The full support of three counties in Wisconsin — Milwaukee, Ozaukee and Waukesha was promised Dr. Bundesen's campaign through W. A. Munn, president of the Wisconsin Guernsey association.

He learns he sirl he knew as Doris Winchell is Georgette's daughter and is at present in a London associal, having been run down by a motor car. The hospital informs him she is out have England.

INSTALLMENT XXXVII. MIMI'S FAREWELL

Adrian Shale and Mimi were walking now, slowly with the crowd, toarran to all were walking now, slowly with the crowd, towards the gangways. Mimi's swift ranging eyes noted one of the inconspicuous lumgers whose attention she most fervently trusted would not be drawn to herself. She wanted Shale to be talking as they passed him.

"And how did you get here so quickly?" she asked in a lower voice; I didn't see you on the train."

"The implied commondation of black of the commondation of the commondation of the commondation."

didn't see you on the train."
The implied commendation of his superior wit pleased Shale. He was You Care for, human, and his plan had worked uncommonly well.

He gave her an understanding glance. "Why, I motored down, dear lady," he said. "I wasn't going to risk losing this last chance of seeing

you. I came down last night." Shale and Mimi passed on to the beat and when a fortnight later, that same cynical plain clothes man was notified to look out for a woman of Mimi's description with furs such as he had seen her wear and Shale carry,

he had forgotten all about them. On board the boat Sir Adrian continued his attentions. A deck hand "Phantom of the Opera" tipped for his job. Half a dozen magazines were bought and placed on the Full of Nothing Flee. chair. Shale was extracting a good deal of grim humor out of this incident, and he was not unaware that this method of dealing with Mimi Hobson impressed her with a sense of his power far more than covert threats and looks would do. He wished he had remembered to buy her a bunch

Phenomenal progress in the use of moving pictures, lantern sildes, and stereographs in the public schools was shown in a report to the board of education just completed by Dudley G. Hays, director of visual education.

No city in the country, the report states, is keeping pace with Chicago in this new field of instruction.

There's only One Crop of Land

MAN may acquire vast and unlimited riches in bonds, factories, railroads, steamships, money, but if he does not own LAND he is indeed a pauper, for mind you bonds may become worthless, factories may burn to the ground, railroads mismanaged, steamships swept to sea and money squandered.

The only tangible thing is LAND. It is permanent, immovable, free from theft, con-stantly rising in value and above all it is real.

More! It is limited to one crop. There is just so much of it and

Limitless Opportunities

As the developers mold this beautiful spot into a superb homeland, values mount. Already men of vision have acquired holdings here—their reward will be large, for the prices they are paying are very moderate indeed when compared to cost of surrounding property. Homesites in Whitfield Estates are still available for the man who acts quickly, for the crop will soon be gone forever. CHICAGO HORSES RECEIVE FINAL **SHOW POINTERS**

Out of Town Entries to Work in Arena Today.

Chicago horses had their last chance esterday to be pointed for competition n the American championships, to be pening at the Chicago Riding club orrow night at 8 o'clock.

Scores of them were schooled yester-day in the spacious tanbark arena where the national titles are to be de-termined. Others may get a chance today to step through a final short drill, but for the most part contenders for the rich prizes from other sections of the country will be in action today. Seat Sale Heavy.

All the preliminary details leading up to the National show will be complete early today. The building of tem-porary box and bleacher seats has been finished, and the demand for seats indicates a capacity crowd will usher in the show. The same big attendance is promised at every afternoon and night

ession during the week.
So many horses had arrived yester day that it became necessary for directors of the riding club to go into special session to determine where they could be stabled. There is room for only slightly more than 300 at the riding club, but space for practically in the vicinity of the club.

Every horse entered in the sho had arrived in Chicago yesterday and most of the owners were here awaiting signal from President Coolidge which will open the pageant Tuesday

sence of many north shore stables which will appear under Chicago colors. Two charity dances are to be given, one on the opening night and the

GASOLINE Now on sale in Chicago

Never before have you been able to get gasoline of this quality

These dealers are ready to give you the best gasoline service in

They all carry Sunoco Gasoline—sold at regular gasoline prices. Sunoco will give you easy starting even at zero temperature and more real satisfaction than you have ever had.

Sunoco, the wholly distilled motor oil, will make that satisfaction complete. It contains no paraffin wax or cylinder stock to clog the engine or to stiffen in cold weather and prevent proper lubrication.

Sunoco flows freely even below zero, insuring easy starting, less drag on your battery and instant lubrication of every part.

Sunoco Gasoline and Sunoco Motor Oil are a perfect combination for winter.

Look for the Sunoco sign.

Pullman and Coal City battled to a scoreless tie at 103d street and Corliss, avenue, and Sparta, division A leader in the Major league, played a 4 to 4 draw with Buda A. A. of division B at 27th street and Kostner avenue.

Buda Gets Early Lead.

The Buda team scored four times in the first 35 minutes of play, but in the second period put up a defensive game. Krabec made the tying score teen minutes of extra play, but darkness halted the game before the over-time period was finished. Coal City's strong defense saved it from defeat. Pullman had the ball in

the visitors' territory most of the time, but was unable to score. Circus Smith, Coal City goal keeper, played an ex-ceptionally good game. Brickies Win, 3 to 1.

BIG MEN OF INDUSTRY—planning today for tomorrow's expansion are turning their eyes toward Nor-folk—the tidewater city of Virginia.

Eight railroad lines link Norfolk with the great markets of the East and Middle West. Low freight rates and a short haul cut down the cost of distribution of finished products.

From Norfolk's harbor-free all year from ice-seven coastwise lines reach out to all points of the North Atlantic coast. Express steamship service at freight rates cuts down the cost and time of distribution for Norfolk's finished products.

Norfolk stands today at the threshold of its future greatness. Its mag-nificent natural harbor facilities can expand indefinitely without congestion. An abundant acreage with deep water frontage provides unequalled plant sites at moderate cost.

Information regarding this issue and the business of the Company is given in a latter from Mr. Simon F. Rothschild, President of the Company, copies of which may be obtained from the undersigned, and which he has summarised as follows:

"In 1865 Abraham Abraham, together with Joseph Wechsler, founded the business on lower Fulton Street, Brooklyn, under the name of Wechsler & Abraham. The original store was 25 x 100 feet in size. From that small beginning, the business grew rapidly until today it is the largest department store in Brooklyn. During 1885 the business moved into new premises in a district which has since become the shopping center of Brooklyn, and the store, which in the old location showed steady growth,

now expanded rapidly. now expanded rapidly.

The total floor space occupied by the business in its present premises is about 1,000,000 square feet. All the real estate and buildings used by the store are under lease to the Corporation with provision for renewals. In add tion several adjoining parcels of land not at present occupied by the business are owned by or under lease to the Corporation, so that ample space is provided for expected growth in the future.

The sales for 1886, the second year in the present location, were \$2,500,000. The sales for the year ending January 31, 1925, exceeded \$24,000,000.

STAFF AND MANAGEMENT In 1888 Isidor and Nathan Straus became associated with Mr. Abraham through their firm's establishment of a china department in the store. The very close and int mate relationship which resulted, led to Isidor and Nathan Straus being invited in 1893 to become partners in the business. They then acquired the interest of Mr. Wechsler and the firm name was changed to Abraham & Straus. In 1920 the business was incorporated under the name of Abraham & Straus, Inc., but no change was made in the existent ownership or management. Mr. Nathan Straus, who has not been active in business for some time, recently retired as chairman of the Board of Directors.

In 1893 the writer entered the firm. Two years later

recently retired as chairman of the Board of Directors.

In 1893 the writer entered the firm. Two years later Edward C. Blum, now First Vice-President of the Corporation, joined the firm. Both have since been continuously engaged in the active management of the business. In 1913 Walter N. Rothsch.ld, grandson of the founder, and Hugh Grant Straus, son of Nathan Straus, joined the erganisation, and are now Vice-Presidents of the Corpora-

tion. These three men and the writer constitute the Executive Committee.

The store has an experienced and well-trained staff of nine merchandise managers and sixty-five buyers and employs in all about thirty-two hundred people.

EARNINGS AND ASSETS

Since the inception of the business, earnings have shown a steady and substantial growth, and the business has shown a profit in every year.

The annual net sales and the annual net profits for the three years ended January 31, 1925, after deduction of Federal income taxes, and after the elimination of certain non-recurring charges, as certified by Messra. Toucha, Niven & Co., were as follows:

The balance sheet of the Corporation, as of January 31, 1925, as čertified by Messra. Touche, Niven & Co., giving effect as of that date to the provisions of an agreement dated December 1, 1925, for the recapitalization of the Corporation, shows net tangible assets of \$7,404,432 or about \$174.22 for each share of Preferred Stock. Net current assets are equivalent to about \$120.94 for each share of Preferred Stock. Ratio of current assets to current liabilities is 5.53 to 1.

The store is recognized as an outstanding institution in Brooklyn. It has grown to be an integral part of Brooklyn's daily life and numbers among its customers the second and third generation of its earlier patrons. It has over 60,000 charge accounts on its books and this number is increasing each year.

Brooklyn is known as the "City of Homes." Its growth has been so great that today its registered voters and enrolled school children exceed those of any other Borough of Greater New York. The growth of Abraham & Straus for the past sixty years has more than kept pace with the growth of Brooklyn."

We are offering the Preferred Stock for subscription at \$101.50 Per Share and Accrued Dividend

mection with this Issue we are also offering for subscription 25,500 Shares of Common Stock at \$45 per Share.

Evenings "in the Home" are not what they were!

MOTION PICTURE HOUSES AND THEATRES, increasing in size and audiences, draw their patronage in the evening from the ayerage family circle. Mother, father or the young people start early for the movies, directly after the evening meal, in order to get good seats.

THE AUTOMOBILE is ready the moment the family rises from the table, and if any, or all, are going to use the machine for an evening's ride there need be no delay in starting.

DINING OUT is becoming more and more a habit, especially in the cities. The younger people particularly are dining away from home, most likely where-there is music or dancing - and the older people, too, are following this idea.

IN ALL THESE INSTANCES of unquestioned curtailment of evening newspaper reading it is the advertising matter rather than the news features which undoubtedly suffers more from lessened attention.

Eitingon Schild Co., Inc.

Ten-Year 6% Sinking Fund Gold Debenture Bonds

Dated November 1, 1925. Interest payable May 1 and November 1 at the office of Halsey, Stuart & Co., Inc., New York or Chicago, without deduction for Federal Income Taxes, now or hereafter deductible at the source, not in excess of 2%. Coupon bonds in interchangeable denominations of \$1,000, \$500 and \$100.

The Debenture Bonds carry Warrants (which may be detached, and either held or disposed of separately and apart from the Debenture Bonds) entitling the holder of each \$1,000 Debenture Bond to purchase five shares of the Common Stock of the Company for a period of three years from November 1, 1925, at a price of \$31 per share during the first two years, and \$35 per share during the third year. Warrants for the purchase of a proportionate number of shares are attached to \$500 and \$100 Debentures.

For detailed information regarding these Bonds, attention is directed to a letter of Mr. Motty Eitingon, President of the Company, which he has summarized as follows:

The Company: The business of Eitingon Schild Co., Inc., had its inception in the United States in 1901 following 70 years of successful operations by my family in the fur industry in Europe. The present Eitingon Schild Co., Inc., was incorporated in 1914 with a capital of \$200,000, and in 1919 I became President of the Company, which now has resources in excess of \$17,000,000. Eitingon Schild Co., Inc., and subsidiaries are the largest fur receiving and distributing organization in the world with branches reaching out to every quarter of the globe. As now constituted, Eitingon Schild Co., Inc., is a completely self-contained unit, embodying every feature of purchase, treating and marketing of furs to the ultimate sale of the treated skins to the manufacturer, wholesaler and retailer of furs and fur products.

Security: The Debenture Bonds are a direct obligation of the Company, constituting its only funded debt, and are issued under a Trust Agreement, the principal terms of which are outlined in my letter to the Bankers. On or before the first day of January, 1927, and of each year thereafter the Company will retire through sinking fund operations, by purchase or redemption, \$200,000 principal amount of bonds per annum. This sinking fund will be sufficient to retire 45% of the total issue, or \$1,800,000 principal amount of bonds before maturity.

Assets: The consolidated balance sheet as of October 31, 1925, adjusted to give effect to the present financing and the transactions in connection therewith, discloses net current assets of \$11,524,214; and tangible assets exclusive of deferred assets, mailing lists, good will, etc., after deducting all liabilities except these Debenture Bonds, of \$14,904,189.

Earnings: The consolidated net profits of Eitingon Schild Co., Inc., and its present subsidiaries, after deducting depreciation, making allowance for minority interests and adjusting interest paid on borrowed money to give effect to the additional capital received from the sale of \$4,000,000 of Debenture Bonds, but before interest on such Bonds, as certified by independent auditors except as to the operating results of the Polish Subsidiary which are included as reported by the Company, are as follows:

Mr. Martin J. Dregge, President, summarizes from his letter to us as follows:

HISTORY AND BUSINESS: The Luce Furniture Shops, a recent consolidation of The Luce Furniture Company, founded in 1879, and The Furniture Shops of Grand Rapids, founded in 1905, is regarded as among the largest and most progressive manufacturers of furniture in the United States. Complete lines of

bedroom, dining room, living room, library and hall furniture are manufactured. The Luce Furniture Shops employ from 1000 to 1200 workmen. The Plants are modern and efficiently equipped. Total floor space aggregates more than eleven acres. Their product is distributed by some of the largest department and exclusive house furnishing stores in the United States, Mexico, Cuba

The Companies report net sales for the ten months ended October 31, 1925, in excess of \$2,940,000, with average annual net sales, during the past four years and ten months of \$3,436,413.85. The Company has unfilled orders on its books at this time amounting to over \$1,000,000.

ASSETS: The total Net Assets of the Company, less depreciation, according to October 31, 1925 statement, are approximately \$4,200,000. After deducting the First Mortgage Bonds outstanding, there remain total Net Assets amounting to \$2,743,545, or over \$300 for each share of outstanding Preferred Stock. As of October 31st, and after giving effect to this financing, net Current Assets were \$1,589,762, or \$176 per these of outstanding Preferred Stock. share of outstanding Preferred Stock.

EARNINGS: Net income after giving effect to new basis of officers' compensation for 1926, before depreciation, after bond interest and Federal taxes (at current rates) for four years and ten months ending October 31, 1925, available for Preferred Stock dividends averaged \$326,568 per year or over 5 times requirements, and for the year 1925 it is expected will amount to at least \$345,000.

SINKING FUND: A Sinking Fund is provided for the retirement of this Preferred Stock amounting to \$40,-000 per annum, payable quarterly beginning March 1, 1927.

LIFE INSURANCE: The Company will carry life insurance on the lives of Messrs. Martin J. Dregge and J. Hampton Hoult in the aggregate amount of not less than \$1,000,000, but not exceeding the amount of First Mortgage Bonds outstanding.

PURPOSE: Proceeds of this issue will be used for consolidation purposes and to provide funds for additions to factory and equipment, and other corporate purposes.

MANAGEMENT: The present management, which includes Messrs. Martin J. Dregge, J. Hampton Hoult and William A. Bowen, all of Grand Rapids, Michigan, will continue in active charge of the Company's affairs. These men have spent their entire business lives in the furniture industry of Grand Rapids, and have been largely responsible for the unusual success of the Companies during the past twenty years.

Net Assets, according to October 31, 1925, statement, after deducting outstanding Bonds, Preferred Stock, and less depreciation, amount to over \$55 (137% of retail purchase price) per share of the Company's outstanding 33,250 shares No Par Value Common Stock. Net Income, after Federal taxes at current year fates and after giving effect to new basis of officers' compensation for 1926, for four years and ten months ending October 31, 1925, available for depreciation and dividends on the Common Stock averaged over \$7.92 per share, and for the year 1925 it is estimated will be over \$8.47 (21% on retail purchase price) per share on present out-

All legal details pertaining to this issue will be approved by Messrs. Knappen, Uhl & Bryant, of Grand Rapids, Michigan, for the Company, and Messrs. \$8,500,000 Northern States Power Company

> Five and One-Half Per Cent First Lien and General Mortgage Gold Bonds Series B Due December 1, 1950

Price 100 and Interest, Yielding 5½ Per Cent

The company agrees to pay interest without deduction for normal Federal Income Tax up to 2%. The following statements are taken from official sources:

The Northern States Power Company operates electric light and power, gas, steam heat or other utility properties serving 505 communities, in Minnesota, Wisconsin, Illinois, North Dakota, South Dakota and Iowa, having a total population estimated to exceed 1,390,000. Minneapolis and St. Paul are the principal communities served. Over 85 per cent of gross earnings are derived from the sale of electricity.

In the opinion of counsel these bonds are secured by a general mortgage upon all of the physical property of the Northern States Power Company and also by pledge of stocks and bonds of controlled companies whose physical properties form the balance of the system.

As officially reported for the year ending October 31, 1925, gross earnings and other income of the Northern States Power Company system were \$21,338,958; net earnings were \$10,543,093, or more than 2.3 times the annual interest on the Company's total bonded debt of \$80,542,600, including this issue, and the dividends on \$818,550 of divisional stocks (a total of \$4,484,361). Each year for the past ten years both gross and net earnings have shown increases over the preceding year. The present quotations on junior securities indicate a market equity of over \$93,000,000.

We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

WHEAT MARKET BATTLEFIELD OF **PROFESSIONALS**

BY CHARLES MICHAELS. The wheat market is a big profes-donal affair with an increase in the outside business and an advance to the highest point of the season last week, \$1.82 for new December and \$1.75 for May, with a break of 10%c on December and of 61/2 on May from the high point.
At the extreme top the advance was

13620c for the week, with net gains of 14c on December, 14%c on May, and 6%c on July, as compared with a week ago.

Prices of wheat are higher than last year and trade sentiment is mostly bullish. Leading traders predict an erratic movement of values for the balance of this month, with a belief in higher prices

Wheat prices in Chicago have advanced ing a complete switch around, so that there is practically a shipping basis from the southwest and porthwest to this mar-ket, figuring the difference in prices for ber delivery with the vario kets. Within the last two weeks around 100,000 bu of cash wheat has been sold to ome to Chicago for delivery on Decem contracts, due to the sharp advance There is a big holding in December wheat, and the government has called for a statement of open individual trades over 100,000 bu at the close of business Dec. 4. It is understood that the largest holding is by milling interests who want the cash wheat, but so far only 5,000 bu have been delivered. The high price has been a good thing for farmers, who have sold wheat for 10@20c a bu more than it was possible to obtain a few weeks ago, and on any further appreciation

Advance Faster than Expected. vheat in Minneapolis last Friday, with other high grade protein wheat at \$1.90

The future of wheat prices is largely a speculative proposition. Advances have brought out heavy taking of profits, which caused sharp reactions, and there is an aggressive bear element in the market, who take the position that futures, having advanced faster than the cash prices, and that all the bullish Argentine news and all other constructive factors

ish foreign propaganda.

Foreigners have covered their short wheat and have bought Manitobas freely, and there are many in the trade who predict that Winnipeg futures will ever sally sell at a premium over Chicago, the same as they did last year. At the close yesterday Winnipeg was 15c dis-count under Chicago on December and 01%c under on May. A general readjustment of wheat values the world over has under way of late, and the impreson is that the world's level is to remain high the balance of the season.

The Foundation the telephone pioneers could not, of course, foresee in detail the problems of invention, manufacture, construction and operation which future expansion might involve.

They could, however, and did catch the vision of a national growth which would necessitate a service continent-wide in scope. They could and did provide the foundation for a structure capable of growing with the nation. The proof of their vision lies in the fact that America to-day has a nation-wide, universal telephone service.

> WE HAVE SOLVED THE SALESMAN'S PROBLEM.

We can give you ten

qualified "leads" each

morning if you want them. We will give you ANY kind of assistance you want.

If you are a REAL salesman we want you and will honestly show you the greatest "setup" for selling real estate in the world.

This offer is for men who know how to sell and who are willing to work. To such men we will let them write their own tickets on the kind of a proposition they want to work under.

Our radio station-WBBM is the talk of the town and is making our name a household word. Our semi-weekly radio shows crowd our offices with 'prospects" that we are selling right off the plat.

Seeing is believing. Come up and talk it over, with me and I'll show you the

In the Small Loan Business. \$10 TO \$300 ON HOUSEHOLD GOODS. PIANOS ETC. WITHOUT REMOVAL.
Ten years of intensive investitation have proven that this business meets a real economic need. Allinois passed a law setting a fair rate of interest and licensing the lender. Loans are made for thousands of different purposes. If you need money in emergency do not hesitate to call, chone or write either of our offices. Repayment arranged in easy monthly installments of principal and interest. Loans can be reduced or paid in fair any time. Interest ceases immediately on every dollar repaid.
